The film has been described by SW as *various phases*. Some pages of the script are available to view on the MUSIC What is the person talking on 'Last Chance to Evacuate Planet Earth Before It Is Recycled'? Can believe that they were from another planet and only visiting earth in order to return to their own dimension before the earth was recycled they all committed mass suicide. A much longer version (about 15 minutes), similar to the one played by the band at some of their concerts was also recorded during the sessions for Sigrid Drezan. As the song 'Plane Lessons' is partly about the nature of celebrity, SW used Keeler as a symbol of someone who achieved their fame without having any conventional talent. GENERAL What happened to www.deadwing.com? The *Deadwing* website can be found and a permanent link can be found in the discography for the *Deadwing* release.
